

## OUR STORY

Basin Pacific has 15 locations around Washington, Oregon, and Idaho. The Kennewick agency of Basin Pacific was started in 2010. Our philosophy was simple:

- Hire the best people.
- Deliver proactive service.
- Provide the expertise of a large broker with the service and care of a local agent.

Our philosophy is to empower like-minded individuals to make the best decisions they can. This translates to the way we work with our customers.

We know it takes more than online forms to make an informed decision about something as critical as insurance or benefits. It takes a trusting relationship with someone who learns what you need and helps you get the best coverage possible.
